Small Business Directory
New Enterprise Incentive Scheme (NEIS) 2006

NEIS is a Federally Funded program through the Department of Employment and Workplace Relations (DEWR). We gratefully acknowledge the support of the Department in this program.
Foreword

On behalf of RMIT University I am delighted to welcome you to the 2006 NEIS Small Business Directory.

This directory showcases an extensive range of new small businesses which were successfully established by entrepreneurial individuals with assistance from the New Enterprise Incentive Scheme (NEIS) program. I encourage you to support the small businesses listed.

RMIT has been delivering the NEIS Program on behalf of the Department of Employment and Workplace Relations (DEWR), since 1998. Over this period, our NEIS program has assisted in the establishment of over 1,200 new small businesses, the majority (over 80%) continue to operate successfully 15 months after commencement.

Congratulations to the small businesses listed in this directory. I highly commend your entrepreneurial spirit and the combination of hard work and perseverance you have put in to ensure that sound business principles underpin the establishment and the ongoing operation of your business.

I wish you continued success in your business endeavours.

Professor Chris Whitaker

Dr Sharman Stone

MINISTER FOR WORKFORCE PARTICIPATION

The Australian Government New Enterprise Incentive Scheme (NEIS) has helped deliver the dream of starting your own small business to over 100,000 Australians.

I want to congratulate all of the great new NEIS graduates featured in this, the 2006 NEIS Small Business Directory.

NEIS is the Australian Government’s longest running and most successful employment programme. In 2006, NEIS celebrates its twentieth year helping thousands of people to step out into small business; a truly remarkable achievement.

With the excellent support of RMIT University, the NEIS graduates showcased in this directory have received business training, mentoring and financial assistance that has provided them with the best possible chance of success. And succeed is just what most NEIS businesses do, with many going on to employ other people - multiplying the programme’s positive impacts.

My family has been farming for generations and for years I helped run a small publishing company. I am familiar with the hard work and the trials, but also the deep personal satisfaction of running a small business and seeing your enterprise grow.

On behalf of the Australian Government, I wish this year’s NEIS graduates continued success in their business endeavours.

Congratulations and my very best wishes.

Dr Sharman Stone

NEIS Program
NEW ENTERPRISE INCENTIVE SCHEME

The New Enterprise Incentive Scheme (NEIS) is a Federal Government funded initiative which assists people to establish their own viable small businesses.

RMIT University has been delivering the NEIS program under contract to the Department of Employment and Workplace Relations since 1998.

The NEIS program provides eligible applicants with a solid foundation of knowledge and understanding of the key skills, planning and guiding principles necessary to support the successful establishment of a new small business. It provides participants with structured training via the Certificate IV in Business (Small Business Management (NEIS)) and support and assistance in the development of a comprehensive business plan.

At the conclusion of the NEIS training stage participants submit their Business Plans for final evaluation, if approved, participants start their business immediately and receive 12 months income support (NEIS Allowance) and one to one mentor support for the first 12 months of operation of their new Small Business.

The RMIT NEIS program has assisted in the establishment of over 1,200 new small businesses, over 80% of these businesses continued to operate successfully 15 months after commencement.

To find out more – please visit the RMIT NEIS Program Web site at: www.rmit.edu.au/bus/neis

RMIT NEIS PROGRAM CAN HELP YOU START YOUR OWN SMALL BUSINESS.

If you are interested, follow the steps below:
